

BI-FOLD & SLIDING DOORS

**ALUK**<sup>®</sup>  
INSPIRING YOUR HOME

## A new way to enjoy your garden & home

Enjoy your garden all year round with AluK Bi-fold and Sliding doors. Make the most of your outside space with panoramic views through unencumbered glazing during the winter and wide open expanses, straight out into your garden, in summer and spring.

Manufactured from strong but lightweight aluminium our sliding and folding doors are available in many configurations to suit your home. Whether your property is large or small, you can still achieve the open plan living you desire without worrying about the weather outside.

Designed to the highest standards, our doors are reliable, secure and built with performance in mind, ensuring that you enjoy this relaxing and stylish way of living for many years to come.

*"Expand your living space  
by bringing the outside in"*

## Bi-fold doors

Enhance your living space all year round

Create modern and enjoyable living spaces by opening up your home to your garden with our stunning range of Bi-fold doors; designed to enhance your home, built to perform.

## Sliding Doors

See more of your garden all year round

Keeping the weather at bay, our high performance lift and slide doors put a whole new perspective on your outside space, opening up wide areas of your living space to your garden.

## Patio Doors

Bring the light into your home

Why settle for a darkened room and obstructed views when you can choose a high performance, stylish and durable patio door to open up your home and let the light flood in.

### Stunning living spaces

Imagine the difference bi-fold doors could make to your home and the way you use your outside space.

## Bi-fold Doors

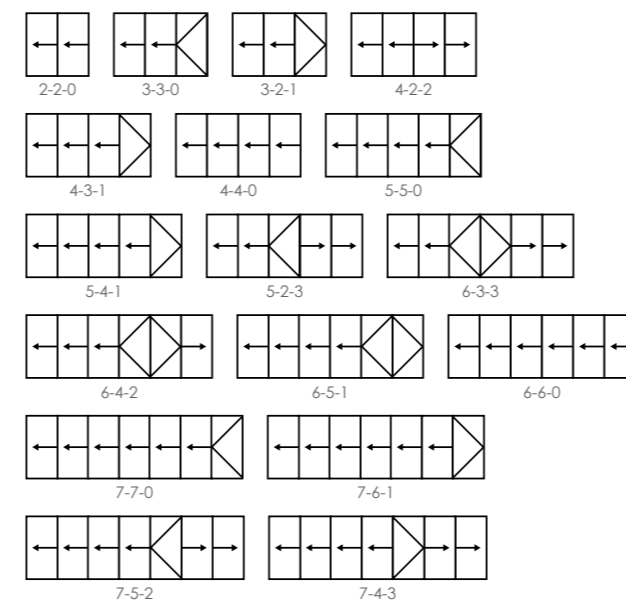

Bi-fold doors are the ideal way to open up your home and bring the outside in, whilst still keeping the weather out.

AluK is a leader in the design and manufacture of aluminium sliding and folding doors, delivering outstanding reliability, performance and design every time. Our range of bi-fold doors enables you to expand your living space by opening up wide expanses of your external walls to your outside space. Whilst at the same time keeping the weather out and the heat in during winter months.

Our stylish but practical bi-fold doors are built to your needs, offering you a bespoke solution every time, from the configuration of the doors to the handles, accessories and colour, making AluK bi-fold doors the perfect addition to your home.

*"Create wide open living spaces  
that you can enjoy all year round"*

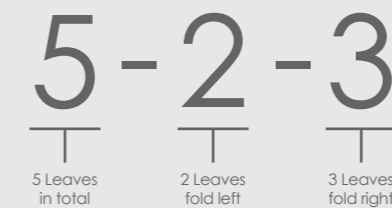

### Configurations

The diagrams shown here illustrate some of the configurations achievable with AluK's bi-fold door system. Panels can be stacked inside or outside to meet your configuration and space needs.

### How configurations work

The Aluk range of bi-fold and sliding doors is designed and manufactured to meet the specific needs of UK homeowners. Delivering high quality construction, demanded by stringent UK standards and regulations, as well as the performance required to protect your home from the elements, our stylish and robust windows and doors can be relied upon to always deliver.

### Performance built-in

The AluK name is associated with innovation and we continue to deliver ground-breaking, high performance bi-fold and sliding door systems that exceed current standards and regulations. It is not enough to just meet these standards; we want to ensure that our customers receive the best product every time. We've designed unique technologies that ensure the highest thermal, acoustic and security performance, keeping you safe in the comfort of your home.

### Safe and secure

Aluminium is a material that is both strong and lightweight, making it ideal for the manufacture of windows and doors. Through our innovative design and technical expertise we have developed products that offer you the safety and security you demand, whilst also providing the performance that enhances your home environment.

Combining high quality security features and hardware with the inherent properties of aluminium has allowed most of our windows and doors to be certified under the 'Secured by Design' scheme, operated by the Association of Chief Police Officers. This ensures that our products provide the highest levels of security to our customers.

### Design flexibility

Our bi-fold and sliding doors provide complete flexibility in configuration, ensuring that there is a solution to suit every home. With a wide range of profiles, frame depths, optional elements, finishes and hardware to choose from you will always find a door to reflect your style and taste.

### A splash of colour

AluK bi-fold and sliding doors are available in a multitude of colours, from our standard range to the full RAL spectrum. Our profiles are polyester powder coated with the highest quality powders, providing you with the peace of mind of a 25-year guarantee. The choice is yours; pick from one of our standard finishes or choose a bespoke finish from more than 500 colours.

# Why Aluminium Windows & Doors?

Aluminium windows and doors offer a stylish finish to any home, with narrow profiles and slim sight lines that really make a difference to the look of your property. Aluminium is a lightweight and strong material that is regarded as one of the most sustainable building products available due to it being almost 100% recyclable.

This inherent strength means that the security of your home is improved and there is no need to worry about warping or rust. With a 25-year finish guarantee and no need for painting, our products are almost maintenance free. You can choose from a vast array of colours to suit your home, including a dual-colour option where the inside and outside colours can be different.

### Network of approved fabricators and installers

AluK windows and doors are fabricated and installed by an approved network of specialist glazing companies, right across the UK. Each one has been selected and fully trained by us to ensure that your doors are built and fitted perfectly every time. We only select reputable and trustworthy companies, who put their customers first, ensuring that the fabrication and installation of your doors are carried out to the highest standards every time.

### Peace of mind

We pride ourselves in the quality and finish of our doors and provide a 10 year system guarantee on our frames and hardware and a 25 year guarantee on coatings, subject to terms & conditions. This provides you with peace of mind that our products will continue to deliver for their lifespan. Please contact us for full guarantee terms and conditions.

### At AluK customer service is paramount

Our customer service and technical team is available to help with your questions.

Whether you need technical advice on product choice and finish or need to know more about the benefits of aluminium bi-fold and sliding doors, our team is on hand to help with your enquiry.
